WHAT IS THIS PRODUCT?

TYPE

This Fund is an Alternative Investment Fund - AIF according to European Directive 2011/61/EC.

TERM

The Fund has been set-up for an indefinite period of time. In accordance with the Fund's rules, the assets belonging to the Fund are owned jointly by the Fund's unitholders. The Management Company may terminate the Fund's management according to the Fund's rules. In this case, the Management Company / the Fund's appointed depository will either entrust its management to another management company or the depository will liquidate the Fund and distribute the proceeds to the Fund's unitholders.

You may redeem shares of the Fund usually on each business day. We usually distribute the income of the Fund on a yearly basis. The management company may suspend redemption if exceptional circumstances make this appear necessary, taking into account the interests of the investors, or limit redemption if the investors' redemption requests reach a predefined threshold above which the redemption requests can no longer be executed in the interests of the investors as a whole.

OBJECTIVES

The Fund aims to generate returns that are higher than market interest rates. These long-term higher yield opportunities require the acceptance of higher price fluctuations.

The Fund invests in other funds; between 51% and 100% of the Fund's assets may be invested in both domestic and foreign funds. In particular, the funds to be acquired should offer exposure to equities, fixed-income securities, real estate, precious metals and commodities (but excluding industrial and non-agricultural commodities). Up to 49% of the Fund's assets may be invested in securities, equities, fixed-income government bonds and corporate bonds, and liquid funds. In addition, the acquisition of certificates and of bank deposits and money market instruments is permitted. Up to 30% of the Fund's assets may be

physically invested in precious metals (e.g. gold, silver etc.). We follow an active management approach.

Benchmark: none.

Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage). A derivative is a financial instrument whose value depends - not necessarily 1:1 - on the development of one or more underlying assets (e.g., securities or interest rates).

SFDR Category – Article 6 (a financial product that does not consider the EU criteria for environmentally sustainable economic activities)

INTENDED RETAIL INVESTOR

The Fund is aimed at retail investors with basic knowledge and/or

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information

about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10,000 EUR is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	639 EUR	1,224 EUR
Annual cost impact (*)	6.4 %	3.9 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6 % before costs and 0.8 % after costs.

COMPOSITION OF COSTS

One-off costs upon entry or exit

		If you exit after 1 year:
Entry costs	4.00 % of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the Fund will inform you of the actual charge.	394 EUR
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 EUR

Ongoing costs

Management fees and other administrative or operating costs	2.31 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	221 EUR
Transaction costs	0.23 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	23 EUR

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this Fund.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 3 years

Due to its investment strategy, the Fund's value may vary considerably over the short time. You should therefore stay invested for at least 3 years to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The

Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Fund you will pay the exit fees only. The detailed procedure to redeem from the Fund is described in the Prospectus.

HOW CAN I COMPLAIN?
